INNER DIMENSION : L 530 mm x W 375 mm x H 290 mm ( Approx)

EFFECTIVE HEIGHT : 170 mm ( Approx.)

LABEL HOLDERS

PARTITIONS

REINFORCED BASE

ALUMINIUM PIPE LOCK CLIP

**STACKABLE & NESTABLE**

- ▶ Bin with largest effective height of 170 mm.
- ▶ Bin can be stacked so you can effectively use maximum storage as compared to a single crate on a shelf and you don't need to keep any free over head space.
- ▶ Bin has large label holders for effective sku identification.
- ▶ Dividers are available for the bin which can divide the bin in 2 or 3 equal parts for more effective storage.
- ▶ Bin has strong heavy duty reinforced base (diamond shape bottom design) for added strength and load bearing.
- ▶ Rounded ergonomic design having strong sides and stacking rim gives extra strength and sturdiness for storage.
- ▶ Clear frontal access to the contents of the bin in stacked condition.
- ▶ Resistance to most industrial solvents, withstands high temperatures.
- ▶ Aluminium pipe fitted with lock pins on either side prevent the mouth of the bin from spreading under load conditions.
